TO WHOMSOEVER IT MAY CONCERN

We had used Ramco Super Plaster Compound in our Rosedale Project at Padur & had noted the following advantages

1. The bonding was good
2. Minimal Crack
3. Consumption of cement content appears to be same for 40kg bag as compared to regular 50kg OPC/PPC bag.

In view of the above advantages, we recommend use of 'Ramco Plastering Compound' for masonry work in our construction projects.

Thanking You,

Yours faithfully,

Muhsin M H
Senior General Manager
